Dedicated to serving businesses
of all sizes for more than 20 years

Visit your local Best Buy store or to talk with a sales representative, please call 1-800-373-3050.

Dedicated to serving businesses

Best Buy has dedicated itself to meeting the technology needs of any sized business for more than 20 years. Our services include fast quotes, competitive pricing, business financing options and commercial-grade technical services. Whether you need network infrastructure technology, high-definition displays, appliances or installation and maintenance services, we have a solution.

Technology that's right for you

Our dedicated account managers deliver professional quotes and develop solutions specific to your business needs. One point of contact will work with you in-store, via e-mail or over the phone. You can count on us for technology that's right for you, including:

- **Commercial-grade products:** available only through our field and inside sales associates.
- **Professional Series products:** designed with the help of business customers like you in our retail stores.
- **IT, consumer electronics and audio/visual solutions:** to help your business grow and succeed.

Service and support to keep you up and running

We offer a wide range of service and support programs to meet a variety of business needs. You can count on Geek Squad® and certified third-party service teams to provide set up, installation, on-going maintenance and post-sale consultation and training.

Services include:

- Data backup and transfer
- Wireless networking
- Computer checkups and repair
- Audio/visual solution design, implementation and maintenance

Best Buy®: a name you know and trust

Flexible payment options to fit your way of doing business

Offering maximum procurement flexibility, with Net-30 accounts, leasing options and more, our payment options are designed with your business in mind and include:

- Net terms
- Leasing
- Credit cards
- Wire transfers and checks
